

BORDER GUARDS REPLY TO SHOTS

Awbrey Residents Call For Officers to Repel Raiders, But None Cross.

An exchange of shots between guards along the river and Mexicans on the opposite side about 10 o'clock Saturday night, resulted in much excitement in the Awbrey station neighborhood, six miles below the city, and was responsible for the calling out of the sheriff's force.

Two reports reached the sheriff's of-

ice of the shooting, and it was feared for a time that a raid had been made by Mexicans from the other side of the river. When the nine deputy sheriffs reached the scene all was quiet. It was found that a party of Mexicans, probably drunk, had fired a number of shots, some of which fell on the American soil. Several guards, privately employed by residents of the neighborhood, had returned the shots and in all between 25 and 30 shots were fired. Ira Ware, a deputy sheriff who patrolled the border east from the five mile bridge, reported that several of the bullets fired from the Mexican side had passed above him.

JURY AWARDS MRS. MAUD PACKARD \$5200 DAMAGES

Mrs. Maud Packard, suing the G. H. & S. A. railroad and the Pullman company for \$35,000 damages for personal injuries, was awarded \$5200 by a jury in the 5th district court Saturday afternoon.

Mrs. Packard, the testimony showed, sustained a fall at Del Rio, Tex., when the train started to step from a Pullman car into the baggage car. Trainmen were engaged in switching cars and the baggage car was pulled away from the rear coaches just as she sought to enter the car to return a pet dog to the care of the baggage men.

Mrs. Packard was en route from Houston to El Paso when the accident occurred, which she alleged severely injured her. This was the second trial of the case, the first resulting in a hung jury.

RANGER SNYDER SHOT IN YSLETA MECHANIC AND DRIVER KILLED

Trooper John McDouaugh Under Arrest; Snyder Had Just Enlisted.

Gus Snyder, a newly enlisted Texas ranger, was shot and probably fatally wounded, and John McDouaugh, a soldier of L troop, Eighth cavalry, is in the county jail, as a result of an altercation that occurred on Main street, Ysleta, at 10:30 Saturday night.

According to the story brought to El Paso, the soldier was intoxicated and was quarreling with another man, when Snyder interfered. The soldier, it is stated, had pulled his pistol and when the ranger stepped forward to prevent McDouaugh from shooting, Snyder received the discharge of a .45 caliber pistol in his chest.

Snyder was taken in charge by Dr. E. S. White, of Ysleta, and then brought to Hotel Dieu. The bullet, entering the left chest, penetrated the lung and came out to the right of the spine just below the shoulder blade.

McDouaugh was immediately arrested and brought to the county jail by one of the state rangers.

Snyder is 43 years of age and had enlisted in the ranger service on the same day that he was shot.

Limberg and Pallotti Hurlled to Death in Crash at Sheephead Bay.

New York, May 15.—All New York is still discussing the tragic automobile race at Sheephead Bay track for the Metropolitan trophy, Saturday afternoon, in which Carl Limberg, driver, and R. Pallotti, his mechanic, were killed.

After leading for 25 miles, their machine ran to the top of the track at the 26th mile, crashed into a rail and both men were hurled high into the air. Limberg was impaled on an upturned piece of timber and died instantly. Pallotti died on the way to the Coney Island hospital.

The machine crumpled at the impact, burst into flames and was consumed. Mrs. Limberg was in the grandstand. When her husband's car did not flash past, she knew what had happened and had to be supported away from the track.

Eddie Rickensbacher was an easy winner of the trophy in one hour, 13 minutes and 21 seconds, an average of 90.2 miles an hour for the 150 miles. Jules Devine finished second, in one hour, 22 minutes and 40 seconds, and Ira Vail third, in one hour, 33 minutes, 44 seconds.

After the accident, Dario Resta forged ahead and led until the 144th mile, when engine trouble forced him to quit. Ralph Mulford led in some of the early laps, but was forced to quit by trouble with his engine before Limberg's accident.

A new world's record was established in the 20 mile race by Johnny Aiken, who won this event in 11 minutes, 16 seconds. The previous record was established on the same track by Dario Resta in 11:24:50. Limberg finished third in the race and Joseph Christensen second.

BLOW ON THE HEAD KILLED NEGRO BOY, SAYS VERDICT

Henry Freeman, the eight-year-old negro boy whose dead body was found in the Franklin canal at Franklin station, eight miles below the city one week ago, came to his death as a result of a blow on the head with a blunt instrument, according to the verdict of justice J. J. Murphy, who conducted the inquest.

The boy, while playing with several other boys in the city Sunday, May 7, fell into the canal and was reported to have been drowned. On the following day the body was found in the canal at Franklin station. An autopsy, conducted by Dr. G. N. Thomas, county physician, revealed no water in the lungs or stomach, while a bruise was found on the forehead, and on this information justice Murphy has rendered his verdict.

DAILY RECORD

Building Permits.

To the Macos Realty company, to build two brick buildings on Aurora street, estimated value \$2000 each.

To George W. Sharp, to build a brick addition to 2600 Boulevard estimated value \$7250.

Aurelio Rueda, age 51, 2143 Finley, May 12; buried in Comedra.

DYNAMITE CAP EXPLODES—MEXICAN BOY LOSES FINGERS.

With three fingers of his left hand badly lacerated by the explosion of a small dynamite cap, Matto Salvia, an eight year old Mexican boy, was sent to the emergency hospital for medical treatment Sunday afternoon at 4:30 o'clock from 10th and Oregon streets. He was later removed to the county hospital, where it was necessary to take off two of the fingers at the second joint.

According to witnesses the youth had lighted the fuse of the dynamite cap and was holding it in his hand, intending to throw it away after it had burned nearer the face of the cap.

NINE AUTOISTS ARRESTED ON CHARGE OF "NO DIMMERS"

Street enforcement of the recent ordinance applying to the dimming of headlights on automobiles resulted in nine arrests Saturday night by the police. The numbers of the nine motorists arrested were taken by motorcycle officers and the owners of the cars will be arraigned before Judge Paul D. Thomas in corporation court this afternoon.

The arrests, according to chief of police Don Johnson, mark the inauguration day of the campaign to enforce the ordinance, under which either a metal hood or a covering for the upper half of the glass be provided to avoid arrest.

PRESIDENT RETURNS TO WASHINGTON AFTER TRIP

Washington, D. C., May 15.—President and Mrs. Wilson returned early today from their weekend cruise aboard the Mayflower. The homeward trip was without special incident.

Immediately after his return to the white house the president read several dispatches on the Mexican situation received since his departure Friday, which Gen. Tasker H. Bliss, acting chief of staff, thought were not important enough to send him by wireless. He had engagements with a large number of senators and representatives to discuss legislative matters.

TWO FIGHT IN AUTOMOBILES; BODY OF ONE IS FOUND

Denver, Colo., May 15.—The body of Daniel Baldari was found in the wreckage of the 14th street viaduct. Sunday night Baldari is said to have stolen an automobile in which he encountered patrolman Shoemaker in another machine. Each tried to crowd the other into the viaduct railing. Baldari jumped from his machine, ran down the approach near the north end and disappeared in the railway yards. Shoemaker fired at the retreating man, whose body was found a few hours later.

PICK JURORS TO TRY ORPHEUS ON MURDER CHARGE

Chicago, Ill., May 15.—The trial of Will H. Orpheus, University of Wisconsin student, on a charge of murdering Marion Lambert, Lake Forest high school girl, opened at Waukegan today with the selection of jurors.

Evidence to be presented, it is said, will be largely circumstantial and the question for the jury to decide is whether the facts and the person which caused her death or whether Orpheus administered it to her.

EVERYBODY'S

CHILDREN'S ART EXHIBIT

(Mezzanine Floor)

Some unusual posters are in this exhibit of entries by pupils of El Paso's public schools in the McClintock Art contest. No two people seem to agree as to which is the best. We are offering a special prize and ask the public to decide on the winner. Come and vote on your favorite tomorrow.

REST ROOM

When you are tired and warm from shopping, visit our Rest Room on the mezzanine floor. Writing desks, comfortable wicker chairs, wash room and toilets are here for your convenience.

A real Guarantee

To be more than a mere "scrap of paper," a guarantee must be absolute—and backed by a concern able and willing to make it good.

The General's guarantee is not only absolute; it is backed by a business operating the world's largest roofing mills, and making one-third of all the roll roofing made in America. That's the guarantee behind

Certain-teed Roofing

The guarantee is for 5, 10 or 15 years, according to ply (1, 2 or 3). There is no evasion about it—no attempt to substitute a high-sounding something "just as good." There is no substitute for a real guarantee. You get an absolute guarantee on CERTAIN-TEED because the General knows that no better roofing can be made. Its raw materials and method of manufacture are both certified by the General's board of graduate chemists, and he knows he's taking no chance in guaranteeing them to you. That's what "CERTAIN-TEED" means—certified and guaranteed. Experience has proven that the guarantee is conservative, and that CERTAIN-TEED will outlast the period of guarantee.

The roofing felt, as it comes bone dry from the rollers, is given a thorough saturation of a special blend of soft asphalt, the formula

of the General's board of expert chemists. It is then given a harder coating of another blend of asphalt. This keeps the inner saturation soft, and prevents the drying-out process so destructive to ordinary roofing. Roofing is impervious to the elements only so long as the asphalt saturation lasts. CERTAIN-TEED retains its soft saturation, and is in good condition for years after the harder, drier kinds have become useless.

CERTAIN-TEED is made in rolls; also in slate-covered shingles. There is a type of CERTAIN-TEED for every kind of building, with flat or pitched roofs, from the largest sky-scraper to the smallest residence or out-building.

CERTAIN-TEED is sold by responsible dealers all over the world, at reasonable prices. Investigate it before you decide on any type of roof

Q-BAN DARKENS GRAY HAIR

Everybody Uses It—So Handy. Harmless—No Dye.

By applying Q-Ban Hair Color Restorer, like a shampoo, to your hair and scalp, all your gray, streaked with gray, prematurely gray or faded, dry or harsh hair quickly turns to an even, beautiful dark shade, so every strand of your hair, whether gray or not, becomes glossy, fluffy, lustreous, soft, thick, with that even, dark shimmer of beautiful, radiant, healthy hair—just as you like to have your hair appear—fascinating and abundant, without even a trace of gray showing. Only natural, evenly dark, lovely hair. Q-Ban is absolutely harmless; no dye, ready to use. Only 10c for a big bottle at People's Drug Store, El Paso, Tex. Out-of-town folks supplied by mail.—Advertisement.
